

RecorDIM Initiative Memo

June 9, 2004

To: Fulvio Rinaudo,
Assistant Director,
CIPA2005 Symposium

From: Robin Letellier,
International Coordinator,
RecorDIM Initiative

Subject: CIPA-RecorDIM Plenary Session and Roundtable-5 (Torino, Italy)

Dear Fulvio,

I thank you again for your participation to the RecorDIM 2004 Partners Meeting in Leuven last month. Please find the RecorDIM 2004 Partners Meeting report at:
<http://extranet.getty.edu/gci/recordim/reports.html> .

As requested, I am providing you with a photo of myself and a preliminary agenda for the participation of RecorDIM Partners at the CIPA-2005 Symposium that you are organizing. You may wish to upload as is this memo and attachment to your **Torino CIPA-2005 Symposium** web site.

With my best regards,

Robin Letellier

CIPA-2005
Torino, Italy
(Sept. 26-30, 2005)

Preliminary Announcement
of the
RecorDIM Plenary Session
and of the
CIPA-RecorDIM Roundtable-5
(Oct. 1-2, 2005)

RecorDIM Plenary Session

As requested by the CIPA Symposium organizers, four (4) RecorDIM Partner Organizations will be invited to participate to the **RecorDIM Plenary Session** (on Day-2 of the Symposium) to talk about their alliances and cooperation with other partners, and to report on the progress and results of their task group activities. It is felt that by exposing Symposium participants to concrete alliances and results, this Plenary Session will incite other organizations to create new task group proposals.

At the end of this Plenary Session, the **RecorDIM Task Group Alliance Hub**' web page (<http://extranet.getty.edu/gci/recordim/hub.html>) will be used as a framework:

- to show *who is working on what task groups*,
- to identify *what gaps remain to be bridged*, and consequently
- to generate *dialog towards resolving some of the remaining gaps* listed in the Roundtable-1 report (see pages 9-12 of the 'Bridging the Gap Between The Information User and Provider' document at: <http://extranet.getty.edu/gci/recordim/reports.html>).

CIPA-RecorDIM Roundtable-5 Meeting

Roundtable-5 will take place immediately after the Symposium (October 1-2, 2005), to follow-up on the symposium **RecorDIM Plenary Session** discussions. It will then focus on how to improve communication between conservation organizations, and on increasing efficiency and effectiveness in the use of the **Alliance Hub**.

One of the objectives will be to work towards making this Hub become a '**one-stop meeting place**' for all those interested in '**the broad facets of RecorDIM**', i.e:

- networking
- sharing
- integrating
- resolving
- delivering

An other important objective will be to discuss '**who will take over what**' of the RecorDIM Initiative's key activities after its termination in 2007? This discussion will be made in presence of all RecorDIM Partners that will be invited to participate to this important Roundtable-5 meeting.

A more detailed **Roundtable-5 Agenda** will be prepared after the July 18, 2004 **ISPRS-RecorDIM Roundtable-4** meeting that will take place in Istanbul (see Roundtable-4 agenda on pages 30-33 of the Leuven RecorDIM Partners meeting report at: <http://extranet.getty.edu/gci/recordim/reports.html>).
